

Production-Ready CAD. Without the Overhead of Hiring In-House.

For manufacturers, engineering firms and product companies across New Zealand, Australia and the USA.

80+

Years Combined Experience

200+

Projects Delivered

3

Time Zones Covered

Trusted by manufacturers, engineering firms and product companies who need expert CAD support without the cost or complexity of hiring in-house.

OUR SERVICES

3D CAD Modelling

Part and assembly models built to manufacturing specification. Includes exploded views.

2D Manufacturing Drawings

Fully dimensioned drawings manufacturers can work from without ambiguity.

Bill of Materials (BOM)

Complete component lists ready for supplier quoting and production planning.

Reverse Engineering

Physical parts or rough sketches converted into accurate, workable CAD models.

Design for Manufacture (DFM)

Catch production problems before they reach the factory floor.

CAD Retainer Support

Ongoing CAD capacity as a seamless extension of your engineering team.

WHY COMPANIES CHOOSE PRO-DEV

- ✓ **One team, one standard of work.**
No freelancer inconsistency. One point of contact, every project.
- ✓ **80+ years of manufacturing experience.**
CAD that works on the factory floor, not just on screen.
- ✓ **Works with your software – whatever you use.**
Onshape, Rhino, SolidWorks, Fusion 360, AutoCAD and more. Files in STEP, IGES, DXF, DWG and PDF – opens in any platform.
- ✓ **No software costs or setup on your side.**
We use fully licensed tools. You just receive the drawings.
- ✓ **NDA signed before any project discussions begin.**
Your designs and IP are protected from the first conversation.
- ✓ **You own 100% of all files. Always.**
Every drawing and CAD file is yours. No lock-in, ever.

HOW IT WORKS

01

We jump on a video call

Tell us about your project face to face. No hiding behind email.

02

We deliver production-ready CAD and 2D drawings

Accurate, on time, in your required file format.

03

Review and approve

Revisions included until the drawings are exactly right.

Ready to simplify your CAD workload?
Book a free consultation – no obligation.

Book a Free Consultation

All conversations are 100% confidential. We sign an NDA before discussing your project.
